

OSBORNE™

BIG WHEEL®

More feed in the pigs and less in the pit with Big Wheel® Feeders

LACTATION FEEDERS

Ad libitum feeding for lactating sows is necessary to maximize productivity. Big Wheel® Lactation Feeders from Osborne Industries enable producers to keep fresh, palatable feed in front of sows 24/7 to ensure maximum feed intake.

- Achieve high feed intake during lactation.
- Optimize sow productivity.
- Wean heavier pigs.
- Made of tough, durable materials.

TARGET FEED & LABOR SAVINGS

- Minimize feed waste with controlled feed delivery.
- Save labor by filling feeders automatically with a flex auger system.
- Easy to install - adapts easily to existing head gates.
- Several model options available.

Model S100

Model S110

Optional Manual Adjustment System

for Big Wheel® Lactation Feeders

Choose your own setting with optional feed adjustment!

* Black display stand not included.
