

Ad-Lib Sow Feeders

Osborne Sow Feeders are designed for farrowing stalls and for testing individual pigs. Our ultra-strong sow feeders feed pigs ad libitum without waste, permitting each animal its own eating schedule for maximum feed consumption. Feed wastage is so low that typical “tub-style” farrowing stall feeders cannot compare, even with three-times-a-day manual refilling.

Model S100

Model S110

OSBORNE BIG WHEEL® SOW FEEDERS
